NO CALLS PLEASE**

### **SCOPE OF WORK**

The Housing Commission seeks qualified construction professionals to assist in repair, restoration and construction activities in the hallways and units of the building that were affected by water damage due to fire suppression. Work will range from basic carpentry/cosmetic repairs to complete reconstruction of unit(s) that sustained more extensive damage. We anticipate flooring, walls, ceilings, cabinetry, paint, hvac, electrical, etc. will be needed. A detailed scope of work will be provided at the 10/25/18 on-site meeting.
